You can talk to us.

Call 1-866-921-SAFE while you're pregnant and someone will help you find services and give you options on what to do with your baby.

If you're not ready to take care of a newborn and don't have anyone to ask for help, there's a place where you can take your baby and ensure its safety and health – A SAFE HAVEN.

ALL HOSPITALS in Pennsylvania are Safe Havens. They are there to protect babies if you cannot take care of them properly. All you have to do is bring your newborn (up to 28 days old) to any hospital and drop it off. That's all. You don't have to talk to anyone. As long as the baby is unharmed and not a victim of any crime, you will not get into any trouble.

No one will ask you any questions, no one will judge you, and no one will say a word about your baby. In fact, you don't even have to give your name or address.

You can provide medical information for the baby. But you don't have to answer any questions.

For further information visit our Web site at

Q&A

What happens to me?

Nothing will happen to you as long as the baby is not a victim of abuse or any other crime.

What happens to the baby?

The baby will be checked by a doctor and given medical care. The local children and youth agency will then find a family to take in and care for the baby.

What if I change my mind?

If you change your mind and want your baby, you have to speak to your county children and youth agency.
